BEFORE THE WEST VIRGINIA STATE BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS

IN RE: APPALACHIAN COAL SERVICES, LLC C2014-02

CONSENT ORDER

Comes now the West Virginia State Board of Registration for Professional Engineers by Edward L. Robinson, P.E., its President, (hereinafter "the Board") for the purpose of agreeing to resolve a Complaint seeking disciplinary action against Appalachian Coal Services, LLC (hereinafter "Respondent Firm"). As reflected in this document, the parties have reached an agreement concerning the proper disposition of this matter, and the Board, upon approval of such agreement, does hereby FIND the following:

1. The matters set forth herein are within the jurisdiction of the Board, which is the state entity with the power and duty to regulate the practice of engineering in the State of West Virginia.

2. On or about July 16, 2013, an employee of Respondent Firm licensed as a professional engineer with the Board notified the Board that, in attempting to renew her license for 2013-14, discovered that Respondent Firm's Certificate of Authorization (COA) had been moved to inactive status in October 2012.

3. The correspondence listed five projects which had been awarded to Respondent Firm during the 2012-13 licensure year and subsequent investigation revealed additional incidents of Respondent Firm's practicing and offering to practice engineering.

4. Respondent Firm is organized under the laws of the State of West Virginia with its principal place of business in Princeton.

5. Andrew K. Alvis, Respondent Firm's managing member, requested on October 1, 2012, that the Firm be placed on inactive status.

7. The Board initiated complaint number C2014-02 at its regular meeting on August 6, 2013, which was served on August 14, 2013.

8. Respondent Firm, by counsel, promptly notified the Board and initiated settlement negotiations rather than filing a response to the Complaint.

9. Respondent Firm knew of the COA requirement, as it had previously been issued a COA, but states that its Managing Member, a non-engineer, voluntarily requested that its COA be placed on inactive status because of a downturn in business without informing the staff engineer.

10. Respondent Firm, despite its choice not to renew its COA even though it qualified for the same, practiced and offered to practice engineering until its professional engineer became aware Respondent had no COA when she was unable to renew her registration.

11. Respondent Firm admits it practiced and offered to practice engineering without the required COA during the 2012-2013 licensure year, offering engineering services for fifteen (15) projects and being awarded and performing the work on nine (9) of those projects.

12. The Board has taken into account the following additional factors in reaching this settlement: an amount that will be a substantial economic deterrent to the violation; the number of offers and instances of the practice of engineering; the fact that the engineering was performed by a professional engineer and there was no risk of harm to the public; Respondent Firm has no history of previous violations, self-reported the circumstances which gave rise to this complaint, and cooperated with the Board in the investigation and resolution of this Complaint.

13. While the Board may lawfully impose a civil penalty for each of the fifteen (15) offenses of offering to practice without the required COA and the nine (9) offenses of practicing
without the required COA, the Board has discretion over such matters and agrees to exercise such discretion in agreeing to the civil penalties imposed herein.

14. The Board has incurred expenses in excess of Five Hundred Dollars in the initiation and resolution of this Complaint.

**CONCLUSIONS OF LAW**

15. The Board is the state entity with the power and duty to regulate the practice of engineering in the State of West Virginia, and matters related to such practice are within the jurisdiction of the Board. W. Va. Code § 30-13-1 et seq.

16. Andrew K. Alvis, as the managing member of Respondent Firm, has the power and authority to make admissions and otherwise act on behalf of Respondent Firm.

17. West Virginia engineering law allows a firm to practice or offer to practice engineering only upon the issuance of a certificate of authorization by the Board. W. Va. Code § 30-13-17.

18. The Board is authorized to "assess civil penalties against any person who violates any provision of this article or any rule promulgated by the board for each offense in an amount determined by the board." W. Va. Code § 30-13-21(b); see also W. Va. Code § 30-13-21(d)(4).

19. Practicing or offering to practice engineering, as defined by W. Va. § 30-13-1 et seq., without a valid Certificate of Authorization is an action that may subject a firm to discipline by the Board, including a civil penalty up to Five Thousand Dollars ($5000.00). W. Va. Code R. § 7-1-5.1.

20. In determining the amount of a civil penalty to be assessed, the Board may consider such factors as:

(a) Whether the amount imposed will be a substantial economic deterrent to the violation;
(b) The circumstances leading to the violation;
(c) The nature and severity of the violation and the risk of harm to the public;
(d) The history of previous violations;
(e) The extent to which the cited person or firm has cooperated with the Board and the Board’s investigation;
(f) The economic benefits gained by the violator as a result of the noncompliance;
(g) The interest of the public; and
(h) Other matters as may be appropriate.
