BEFORE THE WEST VIRGINIA STATE BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS

IN RE: DAVID BERRY  
APEC ENGINEERING, INC.  

C2016-11

CONSENT ORDER

Comes now the West Virginia State Board of Registration for Professional Engineers by Edward L. Robinson, P.E., its President, (hereinafter “the Board”) for the purpose of agreeing to resolve a Complaint seeking disciplinary action against David Berry (hereinafter “Respondent Berry”) and APEC Engineering, Inc. (hereinafter “Respondent Firm”) (together, “Respondents”). As reflected in this document, the parties have reached an agreement concerning the proper disposition of this matter, and the Board, upon approval of such agreement, does hereby FIND the following:

1. The matters set forth herein are within the jurisdiction of the Board, which is the state entity with the power and duty to regulate the practice of engineering in the State of West Virginia.

2. Respondent Berry is a licensed professional engineer in his home state of Ohio and in New York, but has never been licensed to offer engineering services or practice engineering in West Virginia.

3. Respondent Berry is the President of Respondent Firm, which is organized under the laws of the State of Ohio.

4. Respondent Firm has never had the Certification of Authorization (COA) required to offer engineering services or practice engineering in West Virginia.
5. This Complaint relates to a quotation for custom-engineered industrial equipment sold by Respondent firm which included an option for engineering services for installation of the equipment.

6. The quotation was submitted by Respondents to a third-party engineering firm on January 23, 2015, and shortly thereafter provided to the potential client, a power plant in West Virginia.

7. The Board initiated complaint number C2016-11 at its regular meeting on September 15, 2015, which was filed and served on September 23, 2015.

8. Respondents admitted the allegations and initiated settlement negotiations in lieu of filing a response to the Complaint.

9. In prior communications with the Board, Respondents indicated that:
   a. In this instance, Respondents were the electrical component of a quotation process conducted through a third-party engineering firm in Utah;
   b. Respondents’ quotation process often takes years, and, although Respondents were aware at the time the quotation was submitted that the project was in West Virginia, they are not always advised of the location of the project for which a quotation is requested;
   c. Respondents’ communications with the potential customer stated their intention to acquire West Virginia credentials if awarded the project; and
   d. As this was the first project quoted in West Virginia, this six-year-old firm was unaware that West Virginia engineering law’s definition of the practice of engineering includes the offer to practice engineering.

10. Respondent Berry applied for comity licensure and was issued PE License #21557 on September 29, 2015.

11. Respondent Firm intends to apply for its COA after Respondent Firm has a qualified engineer to serve as its engineer in responsible charge.
12. Respondent Berry admits that he offered engineering in West Virginia without a professional engineering license, in violation of West Virginia engineering law.

13. Respondent Firm admits that it offered engineering in West Virginia without a COA, and further admits it did not qualify for a COA because it had no engineer with an active license in West Virginia who could act as Respondent Firm’s engineer in responsible charge.

14. The Board has taken into account the following factors in reaching this settlement: Respondents’ cooperation in communicating with this Board after bringing this matter to the Board’s attention with the comity application; Respondents’ cooperation in the resolution of this Complaint; and the nature of the violation, which did not pose harm to the public since no engineering services have been performed by Respondents in West Virginia.

15. The Board, in its discretion, will not assess administrative costs although it is within its power to assess such costs and administrative costs that were incurred in the investigation, initiation and resolution of this complaint.

CONCLUSIONS OF LAW
