BEFORE THE WEST VIRGINIA STATE BOARD OF
REGISTRATION FOR PROFESSIONAL ENGINEERS

IN RE: GARY AMENDOLA
AMENDOLA ENGINEERING, INC.

CONSENT ORDER

Comes now the West Virginia State Board of Registration for Professional Engineers by
Edward L. Robinson, P.E., its President, (hereinafter "the Board") for the purpose of agreeing to
resolve a Complaint seeking disciplinary action against Gary Amendola (hereinafter
"Respondent Amendola") and Amendola Engineering, Inc. (hereinafter "Respondent Firm")
together, "Respondents"). As reflected in this document, the parties have reached an agreement
concerning the proper disposition of this matter, and the Board, upon approval of such
agreement, does hereby FIND the following:

1. The matters set forth herein are within the jurisdiction of the Board, which is the state
   entity with the power and duty to regulate the practice of engineering in the State of West
   Virginia.

2. Respondent Firm is organized under the laws of the State of Ohio and does not have the
   Certificate of Authorization (COA) required to practice engineering in West Virginia.

3. Respondent Amendola is the President and Owner of Respondent Firm and has never
   been licensed to practice engineering in West Virginia, although he is licensed in the
   State of Ohio.

4. It came to the attention of the Board that Respondents were doing regulatory work in
   West Virginia and, in connection therewith, provided design drawings for an effluent
diffuser and an overflow structure for an existing client’s ("Client A’s") request to modify
   an NPDES permit issued by the West Virginia Department of Environmental Protection.
5. After further investigation, it was learned that Respondent Amendola also prepared three engineering reports for another existing client ("Client B") in connection with expert testimony before the WV Environmental Quality Board.

6. The Board initiated complaint number C2016-26 at its regular meeting on May 17, 2016, which was filed and served on May 24, 2016.

7. Respondents admitted the allegations and initiated settlement negotiations in lieu of filing a response to the Complaint.

8. During the negotiations, Respondent informed the Board of three additional instances of the practice of engineering in West Virginia:
   a. a similar conceptual drawing of an effluent diffuser provided ("Client B");
   b. a review and certification of Spill Prevention Control and Countermeasure Plan (SPCCP) for Client B; and
   c. another SPCCP certification for a company formerly affiliated with Client B.

9. The Board finds that, in preparing for his expert testimony, Respondent Amendola practiced engineering in West Virginia, but agrees to not take disciplinary action for this engineering work and proceed only as to the four (4) counts of practicing engineering without a license and COA in connection with the two (2) effluent diffuser design drawings and the two (2) SPCCP certifications.

10. The Board has taken into account the following factors in reaching this settlement: Respondents’ candor and cooperation in initiating the communications with this Board and resolving this Complaint, especially in coming forward during the negotiation with the three additional practices of engineering, and the fact that Respondent Amendola has a comity licensure application and Respondent Firm has a COA application pending with the Board.
11. The Board has incurred legal costs of over Six Hundred Dollars ($600.00) in addition to
the internal administrative costs incurred by the Board in connection with the
investigation, initiation and resolution of Complaint C2016-26.
