BEFORE THE WEST VIRGINIA STATE BOARD OF
REGISTRATION FOR PROFESSIONAL ENGINEERS

IN RE: BENJAMIN L. SMITH, JR. C2019-19

CONSENT ORDER

Comes now the West Virginia State Board of Registration for Professional Engineers by
Bhajan S. Saluja, P.E., its President, (hereinafter “the Board”) for the purpose of agreeing to
resolve a Complaint seeking disciplinary action against Benjamin L. Smith, Jr. (hereinafter
“Respondent”). As reflected in this document, the parties have reached an agreement concerning
the proper disposition of this matter, and the Board, upon approval of this agreement, does hereby
FIND the following:

1. The matters set forth herein are within the jurisdiction of the Board, which is the state entity
   with the power and duty to regulate the practice of engineering in the State of West
   Virginia.

2. Respondent is a licensed professional engineer in the State of West Virginia holding license
   number 10710.

3. On or about November 11, 2018, Respondent caused to be submitted an “Elevation
   Certificate,” FEMA Form 086-0-33 (7/15), to the Putnam County Planning Commission,
   Winfield, Putnam County, West Virginia regarding a certain trailer located in Poca, Putnam
   County, West Virginia.

5. This complaint relates to Respondent’s “Elevation Certificate,” and revisions of same
   which were submitted to the county planning commission, but were later determined by
   the county planning director to be incomplete, or otherwise inadequate.

6. The Board became aware of the Respondent’s aforesaid submission.

7. This resulted in a Board-initiated investigation which revealed that Respondent had
   prepared and submitted an “Elevation Certificate,” and said action allegedly constituted

1
violations of engineering law as follows: 1) practicing engineering in West Virginia without a COA; and 2) Violating the Rules of Professional Responsibility which prohibit registrants from affixing their signatures or seals to any plans or documents except in accordance with W. Va. Code §30-13-1 et. seq., and the Board’s rules. W. Va. Code R. §7-1-12.4(a) and (b).

8. The Board initiated Complaint Number C2019-19 at its regular meeting on January 30, 2019, which was filed and served on or about February 7, 2019.

9. Respondent filed a timely response to the complaint stating his position on or about February 28, 2019.

10. Thereafter, the Respondent and the Board agreed to settle this matter in lieu of the Respondent going forward to a formal hearing before the Board.

11. The Board has considered the following factors in reaching this settlement: Respondent was a professional engineer licensed in West Virginia at the time the engineering work was done; Respondent cooperated in the resolution of this Complaint, and there was no risk of harm to the public.

12. The Board, in its discretion, will not assess administrative costs although it is within its power to assess such costs and administrative costs were incurred in the investigation, initiation and resolution of this complaint.

CONCLUSIONS OF LAW

15. At all times material hereto, Respondent admits he was acting in his individual capacity, did not have any employees, and was not acting as a separate corporate or partnership
entity. Therefore, Respondent was acting as a sole proprietorship when he provided engineering services relating to the “Elevation Certificate.” W. Va. Code R. §7-1-11.2(a).

16. Sole proprietorships are required to have a COA to offer engineering services or practice engineering in West Virginia. W. Va. Code §30-13-17.

17. Respondent admits that he did not have a COA at the time he provided the aforesaid engineering services.

18. Based on the findings of fact set forth above, and the legal citations set forth herein, Respondent admits that it violated W. Va. Code §30-13-17 when Respondent provided engineering services without the required COA.

Code §30-13-3(e), without an active Certificate of Authorization is an action that may subject a person or firm to discipline by the Board, including a civil penalty up to Five Thousand Dollars ($5,000.00) for each offense. W. Va. Code R §§7-1-12.2 and 7-1-12.2(a).

21. The Rules of Professional Responsibility require that a professional engineer exercise the privilege of performing engineering services “only in the areas of their competence according to current standards of technical competence.” W. Va. Code R §7-1-12.2(b).

22. A professional engineer’s obligation to society requires the professional engineer to approve and seal only those designs, plans, or other documents that conform to accepted engineering standards, and safeguard the life, health, property and welfare of the public. W. Va. Code R §7-1-12.3(b).

23. A professional engineer’s obligation to society requires the professional engineer to include all relevant and pertinent information in reports. W. Va. Code R §7-1-12.3(a).
24. Respondent admits that the submission of the “Elevation Certificate” was incomplete and not accurate.

25. A violation of the Rules of Professional Responsibility, including the misuse of a seal, which would include affixing a seal to an engineering document at the time when the registrant did not possess the necessary education, training and/or experience to provide an engineering opinion on said subject matter, is an action that could subject Respondent to discipline by the Board, including a civil penalty up to $5,000.00 for each offense. W. Va. Code R. §7-1-15.1; see also W. Va. Code R §7-1-12.

26. 29. In determining the amount of a civil penalty to be assessed, the Board may consider such factors as the circumstances leading to the violation; the nature and severity of the violation and the risk of harm to the public; the extent to which the cited person or firm has cooperated with the Board and the Board’s investigation; and other matters as may be appropriate. W. Va. Code R. §7-1-15.4.
