BEFORE THE WEST VIRGINIA STATE BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS

IN RE: WV Electric Industries, Inc. C-2006-06

CONSENT ORDER

Comes now the West Virginia State Board of Registration for Professional Engineers by Leonard J. Timms, P.E., its president (hereinafter "the Board"), and its attorney, Debra L. Hamilton, Deputy Attorney General for the State of West Virginia, for the purpose of agreeing to disciplinary action which shall be taken against WV Electric Industries, Inc.. As reflected in this document, the parties have reached an agreement concerning the proper disposition of this matter, and the Board, upon approval of such agreement, does hereby FIND the following:

1. The Board is a state entity created by West Virginia Code §30-13-1 et seq. and is empowered to regulate the practice of engineering pursuant to West Virginia Code §30-13-1 et seq.

2. Dennis Toothman is the president of WV Electric Industries, Inc., a firm organized under the laws of the State of West Virginia with offices in Fairmont and Beckley.

3. Respondent firm offers a variety of services, including engineering services under certificate of authorization #C02127.

4. This complaint was initiated by Darrell Stephen Rulon on February 9, 2006, and was served upon Respondent by certified mail.

5. Mr. Rulon is an engineer with the Respondent and holds professional engineering license number 015746.

6. This complaint alleges that WV Electric Industries engaged in misleading
advertising, including information on its employees' business cards. Specifically, the complaint alleges that five named employees are given engineering titles without sufficient credentials for such title.

7. Respondent was previously brought before this Board on similar charges in Complaint 2002-5 which resulted in a letter requiring West Virginia Electric to cease any current and future improper use of the terms "engineering" and "engineer."

8. The earlier complaint resulted in Mr. Rulon, P.E., being hired by Respondent, and listed as the engineer in responsible charge on its application for COA, allowing Respondent to advertise engineering services.

9. Regarding the instant Complaint, Mr. Toothman provided a response to the Board on behalf of Respondent dated March 16, 2006, and has verbally provided other information, all of which has been relied upon by the Board in entering into this consent order.

10. In the written response, Mr. Toothman offers the following remedial action:

(a) All business cards of the employees listed in the complaint, as well as others with questionable credentials, have been collected and disposed of. Re-issued business cards will not use have "Engineer" in the title; and

(b) Appropriate changes have been made to the company website.

11. The Board has taken into account the following in mitigation of the charges raised in this Complaint:

(a) Mr. Rulon as an employee of Respondent brought this matter to the Board’s attention.

(b) Mr. Toothman voluntarily took remedial measures which this Board deemed acceptable in addressing the issues raised in the
Complaint.

12. Respondent has waived its right to a hearing on this matter and other rights set forth in W. Va. Code §30-13-1 et seq. and the procedural rules of the Board.

13. The Board incurred only minimal expenses with regard to this Complaint and therefore finds it appropriate to enter into this consent order without the imposition of costs.

CONCLUSIONS OF LAW

14. West Virginia Code §30-13-3(e) states: "Any person ... who holds himself or herself out as able to perform, or who performs any engineering service or work or any other service designated by the practitioner which is recognized as engineering, is considered to practice or offer to practice engineering within the meaning and intent of this article."

15. West Virginia Code §30-13-2 states: "It is unlawful for any person to practice or offer to practice engineering in this state (as defined above) or to use in connection with his or her name or otherwise assume or advertise any title or description tending to convey the impression that he or she is a registered or licensed engineer, unless the person has been duly registered or exempted under the provisions of this article."

16. Misleading or illegal advertising of engineering services is an action that could subject a person or firm to discipline by the Board, including a civil penalty up to $5000.00. 7 C.S.R. 1.15.1.

17. Implicit in the authority of the Board to take disciplinary action pursuant to West Virginia Code §30-13-21 against any professional engineer or holder of a COA is the authority not to take disciplinary action.
